RESOLVED,

RESOLVED,

That the salaries due to the officers of the commissioners under the late and present corporation be now paid, and they were paid accordingly, viz.

To Richard Gladwell, Secretary and Inspector of			
Receivers Accounts,	—	—	£37 10 0
Thomas Owen, Surveyor,	—	—	25 0 0

the board,	—	—	

A new security was proposed and accepted for the receiver of the first division instead of a gentleman who is not returned from the country to sign the bail-bond.

The supervisor of the first division reported, that he has repaired from Corbet's house in Barrack-street to a few doors east of John-street, and that Mahon, who supplies gravel, wants to raise the price from 9d. to 10d. per cart,—that he served notice on the inhabitants of Sand-quay to repair their quay-wall, and they say they neither will build the wall or contribute to the expence.

RESOLVED,

That the report relative to the price of gravel be referred to the divisional committees,—and that the inhabitants of the Sand quay be summoned to shew cause why they will not conform to the notice served on them.

ORDERED,

That the supervisor of the first division do report to the board, on Friday next, the state of the pavement of Smithfield, and to collect the best information by whom the said pavement hath been paved and kept in repair for twenty years last past.

The following report of Thomas Owen, surveyor of this corporation, was presented and read,—“ That, agreeable to order, he examined the pavement in Parliament-street, at the place complained of, and on taking up several parts of it, found the stones in general pitched upright, but that the work was too loose and open.—He likewise has examined Dawson-street, and

and is of opinion the pavement in many places may be improperly done, as in going there in his circuit he has found so, and made them take up again; they will take care while he is present to do the work properly, but cannot say how improperly in his absence, being covered with gravel generally as soon as rammed.—He likewise has examined French-street, and finds many places sunk, therefore must be done improperly.—The permanency of all works depends on having good materials and a proper execution of them; now if that is not perfectly understood by the person who has the immediate superintendency, the work of course will not be completely done. This I am afraid is too much the case at present of the different supervisors, for the want of which ability in them, the badness of the work may in some measure be attributed.”

RESOLVED,

That this board will, on Friday next, consider said report, and that it be printed fully in the minutes, and recommended to the committees to take the qualification of the respective supervisors into their special consideration.

The committee of the third division reported, that they viewed the wall building in St. Cecilia-street, and think Mr. Crawford has encroached considerably on the way which was given up to the public for many years, and which was paved by the late corporation, and that he pulled down the wall built by the late commissioners,—and recommend that he be summoned to attend the board.

ORDERED,

That Mr. Crawford be summoned to attend on Friday next.

The committee of the said third division reported, that they think the opinion of the general board, or of a lawyer, should be had on the following report of their receiver.—

“ That there is situate on the south-side of York-street a piece of ground, the property of a gentleman who paid the tax to Michaelmas 1777, at which time it was let for building,—that he called often those two years past on the proprietor for £36 12 4½, the tax for 4½ years, ending March 1781, but received only evasive answers;—that there are six houses built on this ground which are valued for minister’s money, and he conceives

conceives he cannot receive under the valuation till the former arrear is cleared off, and as there are several others so circumstanced in the division, praying instructions.

RESOLVED,

That the corporation will take said report into consideration on Friday next.

The committee of the fourth division reported, that their supervisor collected £4. fines on nuisances.

RESOLVED,

That the supervisors be allowed £1 18 0 of said fines, and that he do pay the remainder to the receiver for account of the division.

The Report of Richard Gladwell, Inspector of the
Receivers Accounts.

3d OCTOBER, 1782.

" That the receiver of the second division paid the treasurer £32 13 10, being the balance of his quarter's account to the 29th ult. and produced the receipt, and collected since £7, as appears by his check receipt.

" That the receiver of the third division paid the treasurer £54 6 11, being the balance of his quarter's account to the 29th ult. and produced the receipt, and collected since £24 1, as appears by his check receipt, and paid the treasurer £24, for which he produced the receipt.

" That the receiver of the fourth division paid the treasurer £29 3 5, being the balance of his quarter's account to the 29th ult. and produced the receipt.

" That the receiver of the fifth division collected since the 26th ult. £24 5 3, as appears by his check receipt, and paid the treasurer £24, for which he produced the receipt.

Mr. M'Cutchin and a Mr. Lynham, of the Sand-quay, attended, and Mr. M'Cutchin said he owns a yard at the corner of the quay,—that Mr. Mahon lands sand there, and he thinks the falling of the quay-wall is owing to him, and that Mr. Evory said long since that Mahon would throw the wall down.

ORDERED,

That Michael Mahon and Mr. Evory be summoned to attend on Friday next.

Mr. Dawson attended in behalf of Mr. Crawford, of Crow-street theatre, and Mr. Croker also attended with papers shewing the boundaries of the ground whereon the theatre is built, which were read, and by which it appeared that from the north boundary to the front in Cecilia-street, opposite Crow-street, measures 118 feet.

Edward Bellm. Swan, Esq; having declined acting as a committee-man of the second division,—John Dillon, Esq; was appointed in his room.

Mr. Gladwell acquainted the corporation, that having waited on Alderman Geale for the fines run on scavengers, he presented the vouchers for the same, and the Alderman objected to the form in which some of them were drawn; in consequence Mr. Gladwell has sent those which were informal to the supervisors, to have other affidavits made, and he, by letter, acquainted the Alderman of the scavengers names who ought to have cleansed the streets where the carts were run, to enable him to stop paying the money of their contracts due at Michaelmas.

A sufficient number of the committee of the sixth division not having attended the meetings for the space of one month, whereby their powers, under their appointment, may be considered as at an end, the following committee were appointed :—

The Hon. John Butler,

Stephen Dickson, Esq;
Samuel North, Esq;
Geo. Cartland, Esq;
James Somerville, Esq;
Rich. Waller, Esq;

The order for taking into consideration the report of the account of the third division being read,

ORDERED,

And the question being put to agree with said proposal, it passed in the negative.

A motion was made, that the surveyor do acquaint Alderman Lynam, the treasurer, that if he will advance £150 for the works of the first division, that this board will guarantee him in the payment.

The previous question being moved, it passed in the affirmative.—Ayes 7.—Noes 5.

ORDERED,

That the supervisor do give notice, agreeable to the act of parliament, to the inhabitants of the Sand-quay, to repair the wall before their respective houses.

Mr. Owen reported, that, agreeable to order, he measured the ground from the outside the north boundary-wall of the play-house to the front of the present wall now built to St. Cecilia-street, and find the same to be 118 feet in depth; and the width, from the front of the house in Temple-lane to the front of the curbing to footway in Fownes'-street, 163 feet;—and by minute of several leases it appeared that said wall does not extend beyond the limits thereof.

The

The committee of the third division reported, that the observations of the surveyor relative to the qualifications of a supervisor are very just,—that they elected their supervisors for three months only, and will not re-elect him if they do not find him qualified,—that they have given orders not to pay the paviers of Dawson-street and French-street, till the work is properly executed,—that the dirty condition of the streets are such that it is impossible for paviers to work, and recommend that carts in addition to their own be run on the scavengers,—that there are projecting windows at No. 37, Fleet-street, and at No. 4, Palace-street,—and that they fined an inhabitant of Grafton-street 10s. for laying down rubbish in Johnston's-court.

ORDERED,

That the clerks of the divisional committees do furnish the supervisors with copies of the returns made by the secretary to the committees of the contracts that are unexpired.

The supervisor of the first division reported, according to order, that about the year 1750 the customs of Smithfield-market were let by the water-bailiffs to one Kelly, who then paved and cleansed it,—that in 1760 the citizens were told they had no right to pay custom both in and out of Smithfield, and Mr. Kelly gave up his contract with the water-bailiffs, went to law with the sales-masters, and was cast,—they afterwards paid £20 per annum to different persons to cleanse Smithfield, and they declined the business after the first year,—that some years past it is let by the city as other streets, and is kept very dirty,—that the pavement is very bad, the footway being almost impassible; it got a thorough repair once only these 30 years, which was 9 years ago, by the city.

RESOLVED,

That said memorial be considered on Friday next.

The Committee of the second division reported, that they fined two persons for laying ashes in the street, and that the several persons to whom the late Committee were indebted, are very pressing for payment.

ORDERED,

That half the said fines be allowed the supervisor, and that he do pay the remainder to the receiver.

The Committee of the second division recommended the Petition of John Morris, Cartman of the division, who was greatly hurt by the falling of a brick off a wall in the Store-yard on his head, when about their business, which had disabled him from earning support for himself and his family.

The Committee of the third division reported, that there were two jet-out windows erected in Dame-street, that project five inches, and two in Grafton-street. six inches—that there are several steps on the foot way of Dawson-street, that project from four to fourteen inches,—and that the projecting windows in Palace-street, and Fleet-street, are not yet removed.

The sdpervisor of the fifth division reported, that Usher's-quay, and the repairs of Usher-street, are finished—that they are at work in Dirty-lane,—that Francis-street, is out of repair, but if the holes were filled with strong gravel, he thinks it would hold 'til spring,—and that there is a new building in Hanover-lane, which projects 4 feet farther than the old house.

ORDERED,

And that Mr. Owen, do consider how best to repair Francis-street, that there be an estimate made of the expence, and that the person who is encroaching on the public street, in Hanover-lane, be summoned to attend on Friday next.

A memorial of Arthur Maguire, of Dawson-street, Esq; was presented, setting forth the great inconvenience it would be to him to have the lower step of his house removed, as it rests on an arch which cannot be thinned or altered, and the expence of pulling it down, and building it would be very great,—that it has been there these many years, and no inconvenience ever arose to the said inhabitants; that the Street is 40 feet wide, from Curb to Curb, and from the step to the Curb is nine feet wide.

RESOLVED,

That said memorial be considered on Friday next,—and that Mr. Owen do view the step, and the vaults, and report whether without altering the arch, the step can be removed.

A memorial of Sir Thomas Blackall, Kt. was presented, setting forth, that he is about to open a street in the ground where Arundel-Court stood at Nicholas's-gate, which will communicate to Francis-street, and all the principal streets, that there is a great fall, and it is extremely well calculated for a market, as it could be well watered,—that he could lay it out for that purpose, and leave the lower parts of the houses in Stalls, that it would be free from encroachments and clean, which is the present objection he understands to Patrick's-market.

Morgan Crofton Esq; reported, that the Committee appointed to consider the rules of the late Corporation, had met; and carefully examined and considered the same, and had collected such rules and orders as they apprehend will be found useful and necessary for this Corporation, which he was ready to present as soon as the Board thought proper to receive the same.

RESOLVED,

That the same be now received, and being received accordingly;

RESOLVED,

That the Corporation do on Friday next proceed upon the consideration of the said rules and orders, the first business after the bills, nothing to intervene.

Bills of work done, and materials furnished to the following divisions, regularly certified by the committees, were read and approved of, and warrants were granted on the treasurer for payment as follow, viz.

The committees of the following divisions not having met, warrants were drawn on the treasurer for the payment of labourers, &c. to be accounted for.—

Second Division,	—	—	£ 7 5 0
Third Division,	—	—	11 7 6
Fifth Do.	—	—	16 13 4
			£35 5 10

A Bill certified by the committee of the second division was read, but not being delivered 'til the Board was at business; there was not time to prepare warrants, as they ought to be delivered the day before the meeting of the Corporation.

ORDERED,

That Mr. Roche do on Friday next shew cause, why the value of stones said to have been sold, and some articles not delivered up to the present supervisor, should not be deducted from his account.

ORDERED,

That it be requested of the commissioners, who are of the divisional committees, to attend their committees the next meeting to examine the accounts, and certify bills for the warrants heretofore granted and not accounted for, and that no further warrants of that nature will be granted.

ORDERED,

That the supervisor of the third division do give notice to the inhabitants of Tangier-lane, to pave the same, and if they do not comply that without further orders he do pave the same, and keep proper account of the expence, that the same may be charged in due proportion and levied off the proprietors or occupiers of the stables, coach-houses, and out-offices therein.

ORDERED

ORDERED,

That the supervisor of the third division do summons the owners or inhabitants of the houses mentioned in his report of Friday last, where jet-out windows are erected; to attend this Board next meeting, to shew cause why they should not be fined for erecting the same without licence.

RESOLVED,

That any supervisor who is found negligent in his duty, and particularly in that part relative to obliging the inhabitants to cleanse the footway, shall not receive any part of the fines levied on other nuisances.

The supervisor of the second division reported, that the upper part of Dawson-street has been wretchedly torn up by the pipe-water committee, and has not yet been paved—and the street is almost impassable,—that he served notice on the inhabitants of the Batchelor's-walk, when the quay-wall fell, to repair and pale in the same and they have pailed it in.—that he has employed four carts with the divisional cart to remove the scavengers dirt, but the Treasurer refuses to pay the small bills incurred by that work, so that the division must lye buried in dirt,—as one of the scavenger contractors has thrown up his contract, so that more carts will be wanted and it is necessary to have a careful person to superintend this work.

The clerk of the division was ordered to give Mr. Blenkinsop the warrant last granted for paving over the pipes, which was the reason why he did not pave Dorset-street, and he said he would have the pavement made good.

RESOLVED,

That the inhabitants of Batchelor's-walk, (one of whom attended) be indulged in time, 'til the 1st of April next, to rebuild their quay-wall.

ORDERED,

That a letter be written to the City Treasurer, to request the fines on scavengers be paid to Alderman Lynam, before Friday next, to enable him to discharge the demands for said account.

Th

The supervisor of the third division reported, that upon serving Mrs. Smith, with the notice ordered last meeting, she said she would be fined, sooner than remove her jet-out windows; that he also served Mr. Dalton of Fleet-street, with notice,—that he gave notice to several inhabitants to alter their coal vault stoppers, and some have complied, and others promised that they will.

The notice to Mrs. Smith, and Mr. Dalton, not being given till late in the week.

Mr. Dalton of Fleet-street, attended; and presented a memorial, and the question being put, whether the same be taken into consideration, it passed in the Negative.

RESOLVED,

That if the said windows are not altered against Friday next, the fine be levied without further notice.

The surveyor reported that he viewed Mr. Maguire's step and vaults in Dawson-street, and that it cannot be altered without taking down and altering the arch.

RESOLVED,

That under the particular circumstance of Mr. Maguire's case, the step be permitted to remain.

The Memorial of Sir Thomas Blackall, being read.

ORDERED,

That the secretary do write to Sir Thomas to acquaint him, that it is the opinion of the Commissioners, that his application does not come properly before them.

The supervisor of the fourth division reported, that there is no improper coal-vault stopper but one in his division, at No. 17, Great Ship-street.

ORDERED,

That the supervisor do forthwith give notice to have the said stopper altered.

A memorial of James Lynam was read, setting forth that his parents rented a house in Hanover-lane, which ranged with those of the street, that the front fell down, and they were unable to rebuild it, and lived in the back part of it; that the adjoining houses on one side fell and are rebuilt considerably back, that he has saved and borrowed money to new front the house belonging to his family, and is building on the old foundation wall, not advancing one inch, that this is well known to be the case, and that this is well known to the surveyor and supervisor; that he is a poor man and praying to be favourably dealt by.

A bill No. 27, of flagging done by Mathew Perry, in Peter-street, made up by Mr. Owen, amounting to £120 6 4, regularly certified by the Committee, was presented and read, and the whole of the footway of that street not being completed, nor one halfpenny per foot deducted, which is covenanted by contract, as security for keeping his work in repair.

RESOLVED,

That £108, be allowed to Mathew Perry on account of said bill, and a warrant was granted accordingly.

The Committee of the fourth division, in said bill accounted for £50, granted to the said Mathew Perry on account, and £6 19 6; and by another bill No. 29, they also accounted for £19 10, which was granted by warrants to be accounted for, and

and those bills therefore account for all such warrants granted to them.

The Committee of the fifth division, certified a bill accounting for £99 9, granted to them in sundry warrants to be accounted for, by which it appears a balance remains in their Supervisor's hands of £1 6 0½:—and they also certified that £50, in like manner granted to them, was paid to the person employed to flag Dirty-lane, and is charged him in account:—and said bill accounted for all such grants of money to the said fifth division

RESOLVED,

That no money be paid to James Gernon on account of Arklow stone, cross passages made by him, until he shall enter into contract, keep all such cross passages in repair, agreeable to his proposal.

ORDERED,

That the Surveyor do ascertain how much of the Arklow stone pavement charged in the bill No. 25, certified by the Committee of the fourth division, ought to have been repaired by James Gernon.—He having consented to repay so much as is charged in said bill, for work which ought to have been so repaired by him.

ORDERED,

That a cross passage be made in Henry-street, from the west corner of Sackville-street, opposite Clements's the grocer.

The Committee of the first division reported, on the memorial of the inhabitants of Grange-Gorman, that they will comply therewith, when the season and funds will admit.

RESOLVED,

That the Corporation do agree with the said reports.

The Surveyor reported on the memorial of John Plunket, that he does not apprehend any inconvenience can arise to the public, by allowing him to make a slip in the Quay-wall opposite

his house; and the Committee of the first division agreed in opinion with him.

RESOLVED,

That the prayer of the memorial of John Plunket be granted.

The Committee of the fourth division reported, that they fined three persons 10s. each, one person 8s. 8d. and one other person 5s. for different nuisances, in all £2 3 8.

The Supervisor of the second division presented 17 affidavits, by which it appeared there were 245 carts of scavenger's dirt removed by the carts of said division, the fines whereof amounted to £61 5.

ORDERED,

That the Supervisor do apply to the City Treasurer for payment of said fines, and hand the amount to Alderman Lynam, for the account of his division.

The Supervisor of the third division reported, that Mrs. Smith has not brought effects into her house in Palace-street yet, and that when she does, he will distrain her; and that having waited on Mr. Geale for scavenger's fines, he was told the Lord Mayor desired he would pay these fines once a quarter, and that if he called after Christmas, he would pay him.

ORDERED,

That the Supervisor do call on the City Treasurer for payment of the fines, which the Board expect agreeable to act of parliament, will be paid without delay.

Mr. Gladwell laid before the Corporation, a notice of appeal to the Quarter Sessions served on him by Mr. Boland's, agent, against the allowance agreed to be made by the late Commissioners, for gravel raised in Mabbot-street.

ORDERED,

ORDERED,

That the said notice be sent to Mr. Glascock, with instructions to take proper defence against the same.

ORDERED,

That Mr. Owen do view the pit from whence the stones and gravel were taken in Mabbot-street, and measure the excavation so as to inform himself as fully as possible, what quantity of stones and gravel might have been taken therefrom, by the officers of the late Corporation, of the Commissioners of the Revenue, or others, estimating the carts according to the rules of measurement of this Board, and making due allowance for soil removed; and also, as far as he is able to distinguish the quantity of inferior stones and gravel so taken, before they worked the pit deep enough to get those of such quality as were really good and valuable.

The Surveyor reported on the memorial of the inhabitants of Cook-street and Skipper's-lane; that he thinks it would be improper to fix a grate to the sewer, to receive the filth and dirt—that the water of Schoolhouse-lane, has a passage across Cook-street and down Skipper's-lane, to the Liffey, which is the best conveyance for the water, and that it is the scavenger's business to remove filth and dirt.

RESOLVED,

That the memorial of the inhabitants of Cook-street and Skipper's-lane, be rejected.

ORDERED,

That a letter be written to the Lord Mayor, to complain that the Town Clerks did not answer the letter written them by order of the Board, relative to the Pest Houses in Thomas-street, and to request an answer thereto.

A memorial of the Governors of Mercer's Hospital, was read, setting forth that they are charged a large arrear of paving tax, that their income is inadequate to their expences, by near £300 per annum, and requesting their case may be considered.

A memorial of the inhabitants of Fleet-street was presented, setting forth that the person who opened the street from Price's-lane to Hawken's-street, for cleansing the sewer, they apprehend

hend got licence from the late Supervisor, and ought to have sufficiently repaired the pavement when he finished the sewer; that he repaired it very imperfectly, that they understand the present Corporation object to pave that part, though the pavement before broke up there was full as bad as at the upper end of the street; that they hope the Board will consider their disagreeable situation, and if insisted on, they will pay so much of the extra expence for every hundred feet the lower part shall cost, more than that part which was broken up for the sewer.

A memorial of James Gernon was read, setting forth that he made cross passages in the second division, as appears by the Surveyor's bill of measurement amounting to £80, that the late Board ordered a debenture for £100, to be prepared, out of which he was to be paid, and there was not afterwards a sufficient number of Commissioners to seal it, and praying relief.

RESOLVED,

That said memorials be considered on Friday next.

A memorial of Timothy Delany, carter of the fifth division, was presented and referred to the Divisional Committee.
